Document: Developer Fast Start Installation Guide v5.5

PegaRULES Process Commander v5.5

Updated: March 26, 2009

Contents

Introduction.....	4
Installing the Application.....	5

Introduction

Developer Fast Start V5.5 built on PegaRULES Processor Commander V5.5 (PRPC) provides a sample application called Order Entry System. This application demonstrates new PRPC V5.5 features including Smart Layouts and the Application Skin Wizard.

The Developer Fast Start guide provides hands-on instructions for modifying the DFS sample application. The application allows employees of AlphaCorp to submit purchase order requests using their Web browser and it automates the process of entering, routing, and approving purchase orders.

Rules and applications you develop with the Developer Fast Start can be moved to a full Process Commander system, version 5.5 or later.

Installing the Application

1. Open the DeveloperFastStart_v5.5 zip and locate the OrderEntrySystem_v5.5.zip which contains the rules and rulesets for the Order Entry System application. Save the OrderEntrySystem_v5.5.zip to your local directory.
2. Log into your Process Commander system using your operator ID and password to open a Developer portal (Figure 1-1).

Figure 1-1. Developer Portal with Import Archive Menu Item Selected

3. Select File > Import > Import Archive. The Import Rules/Data form appears.
4. Complete the form as described below and then Click Upload to start the import process (Figure1-2).

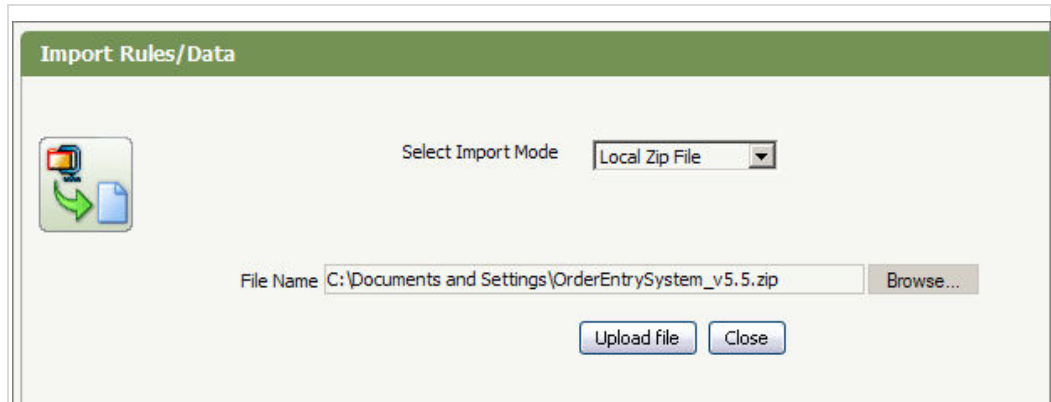

Figure 1- 2. Import Rules/Data

5. In the Select Import Mode field, choose Local Zip File.
6. In the File Name field, browse for or enter the full path to the application .zip file named OrderEntrySystem_v5.5.zip.
7. Click Upload File to import the OrderEntrySystem_v5.5.zip file into your application. The Import/Rules Data window displays.
8. Under Import Options, select Compile Libraries, Overwrite Existing Rules, and Overwrite Existing Data. Then click Import. (Figure1-3)

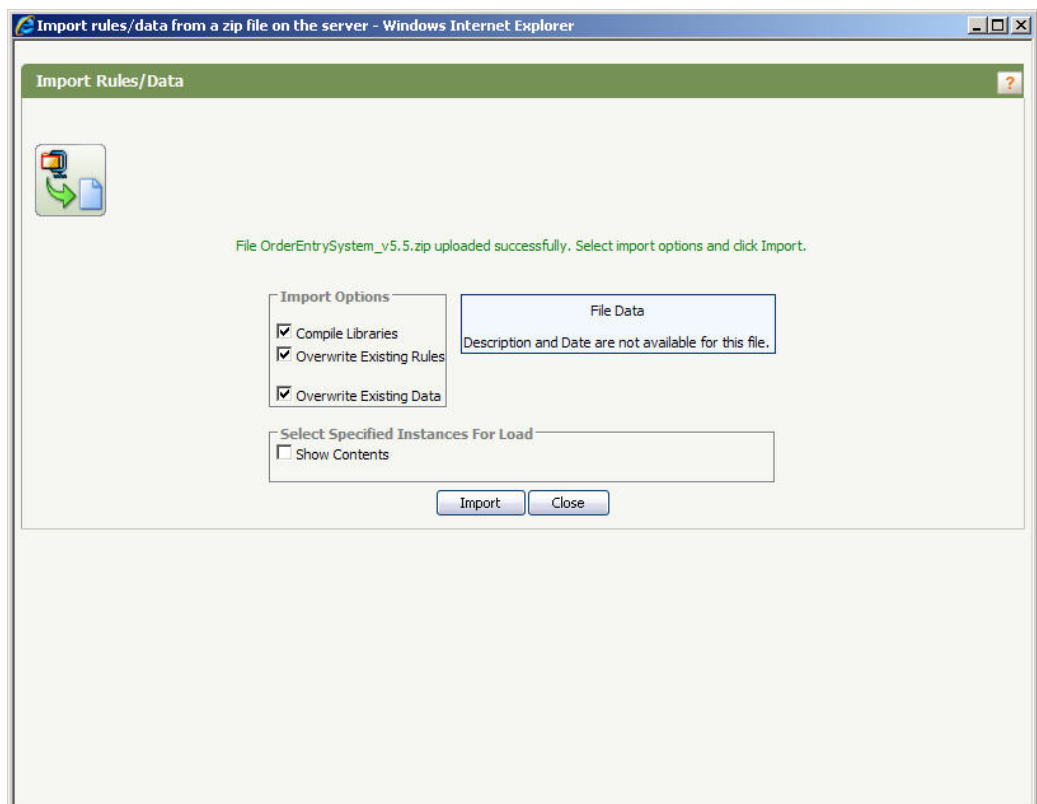

Figure1- 3. Import Rules/Data – Import Options

9. When the import is complete, log out of Process Commander.
10. The Order Entry System archive includes operator IDs and Access Groups for Developer-Developer10, allowing up to 11 people to use the application at the same time. It also includes the Work User and Work Manager operator IDs and Access Groups, allowing you to view and use the work and manager portals. You can sign on using any of these IDs:

Operator ID	Password
Developer@AlphaCorp.com	rules
Developer1 @AlphaCorp.com	rules
Developer2@AlphaCorp.com	rules
Developer3@AlphaCorp.com	rules
Developer4@AlphaCorp.com	rules
Developer5@AlphaCorp.com	rules
Developer6@AlphaCorp.com	rules
Developer7@AlphaCorp.com	rules
Developer8@AlphaCorp.com	rules
Developer9@AlphaCorp.com	rules
Developer10@AlphaCorp.com	rules
WorkUser@AlphaCorp.com	rules
WorkManager@AlphaCorp.com	rules

11. Next Steps: Refer to the Developer Fast Start guide for hands-on exercises and training using the Order Entry System application.
